

To whom it may concern,

Product Information

We are glad to inform that the product **Methyl ethyl ketoxime (MEKO)** has been registered by UBE Corporation Europe S.A.U fulfilling Regulation (EC) 1907/2006 (REACH) and its deadlines. **Registration number:** 01-2119539477-28-0002

We can also confirm you that none of the substances added by ECHA in the Candidate List updated on 15/01/2018, known as "Substances of Very High Concern (SVHC)", has been intentionally added to the mentioned product, and consequently, this product does not contain a concentration equal to or greater than 0,1% (w/w) of any individual substance included in the Candidate List, not applying Article 31(3) and Article 33 of Regulation (EC) 1907/2006.

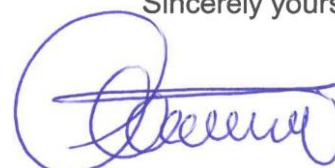

In addition, the mentioned product does not contain any substance included in REACH Annex XIV, so no authorization of use applies. Regarding Restrictions, the following entries of Annex XVII apply: Entry 3.

Disclaimer: This statement is prepared based on current available information from suppliers in terms of additives and raw materials, such as SDS and specification data sheets. Thus, impurities that are not reported on them are not taken into consideration.

Since the conditions of commercial production are not under our control, whether express or implied, UBE Corporation Europe S.A.U., makes no warranties with respect to the information contained herein.

This declaration is considered valid at the date of provision.

Sincerely yours,

Dr. Victor Costa
