

# Honey

Selected mounting - for PDF file. Velcro

Selected colour - for PDF file.  Yellow

## Product description

HONEY polishing pad is an easier, faster and more enjoyable way to get the highest gloss of lacquer for the most demanding users. Foam structure maintains the paste on the surface of the pad what provides accurate developing of particles and full utilization of the paste. The edges of the hexagonal blocks reduce the time of bringing the paint to the ideal state. Cuts help to control the temperature. Dividing the working surface allows an easy operation with the entire pad. We recommend working with rotary machines in the rev range 600-2000rpm. Application: second step polishing compounds and One Step compounds.

Type Honey

Name Velcro HONEYCombination Polishing Pad, yellow

Size	Index
150mm x 50mm	PVHY1030150
150mm x 25mm	PVLY1030150
135mm x 25mm	PVLY1030135
125mm x 25mm	PVLY1030125

## Product properties

### Main product features.

#### Foam:

- Optimal selected shapes
- The homogeneous structure of high strength
- Specially shaped surface
- proper hardness

#### Mounting:

- Polyamide velor to ensure strong connection

#### Connection:

- Adhesive is matched individually to the bonded substrates.
- Resistance to temperature, aqueous environment and organic solvents

The product shows the resistance to prolonged exposure to temperatures up to 110 ° C.

Parameters	Value	Standard
Density	36 - 41	kg/m <sup>3</sup>
Hardness 40%	8 - 11	kPa
Elongation	140	%
Tensile strength	200	kPa
Cell diameter	480 - 660	micron
Tear resistance	7	N/cm
