

**TECHNICAL DATA SHEET****Thinner for bases**

Thinner for acrylic bases is a mixture of adequate thinners which results in a product with defined evaporation temperatures. It is designed for thinning majority of basecoats. Ensures correct application and drying of a thinned product.

**FOR PROFESSIONAL USE!****IT CAN BE USED WITH:**

- ◆ Bases.

**MIXING RATIO:**

Observe mixing ratio given in technical data sheet of a thinned product.

**EVAPORATION TIME:**

Evaporation time can be reduced or extended by using adequate type of the thinner: standard, fast or slow. Standard thinner is recommended for works at the temperature of 20-25°C. Fast thinner is recommended for repairs of large surfaces at temperatures below 20°C and for minor repairs. Slow thinner is recommended for repairs at temperatures over 25°C.

**COLOUR:**

Clear.

**HEALTH AND SAFETY RECOMMENDATIONS:**

According to Material Safety Data Sheet of Dangerous Substance for particular product.

**STORAGE CONDITIONS:**

Store in a dark and dry place away from fire and heat sources. Shelf life in original package at the temperature of 20°C is 12 months.

**PACKAGING:**

Art. No	Capacity:	Package, pieces:	Weight of carton, kg:
40201-1	1 L	6	6,10
40202-1	5 L	4	18,80
