

CHALKBOARD

DESCRIPTION

CHALKBOARD is a modified acrylic based silky matt textured interior paint that features decorative blackboard effect to the surface its applied on.

APPLICATION AREA

Chalkboard is used for decorative purposes on interior walls of buildings, wood, mdf etc.

FEATURES

- It provides perfect background for chalk writing to the surface its applied on,
- It features high pigmentation,
- Adheres to the surface perfectly, does not blister neither cracks,
- After reaching its final hardness and durability, it can be easily cleaned with a damp (wet) cloth,
- It can turn all kinds of surface to the writing board (chalkboard) and after it dries it can be written on it with colorful chalks,
- Highly vapour permeable, it enables the vapour to be thrown out and allows the surface to breathe,
- Water-based, it is odour-free; it is harmless to human health and environment.

SURFACE PREPARATION

- Remove all kinds of dirt, oil, blistered paints and dust from the application surfaces, correct the surface defects using SAN DECO Acrylic Putty Interior.
- Surfaces with old paint or surfaces to be painted must be undercoated with SAN DECO Uniprimer.

APPLICATION INSTRUCTIONS

- Prior to application, dilute CHALKBOARD with 5% of fresh water and mix it homogeneously.
- Apply 2 coats with a roller, brush or a spraying method. Wait minimum 3-4 hours before applying second layer.
- The environment of application must be kept between +5 °C to +35 °C within 24 hours during and after the application.

DRYING TIME

Allow 2-3 hours for touch dry, 24 hours for complete dry, and after 72 hours the surface is ready to use at 23 °C environment conditions.

THEORETICAL CONSUMPTION

Depending on the surface smoothness, its porosity and the application methods, for a single coat application;

-1 lt covers an area of 16 – 20 m²

-1 kg covers an area of 13,4 – 16,8 m²

- The paint consumption for 1 m² area is 50 – 62,5 ml and 60 - 75 gr.

STORAGE

The product should be stored in a sealed package, in a cool and dry place and protected from direct sunlight at temperature between +5°C and +35°C.

PRECAUTIONARY STATEMENTS

- **P 102** Keep out of reach of children.
- **P 301+ P 310** IF SWALLOWED: Immediately call a POISON CENTRE or doctor/physician.
