

WAX

DESCRIPTION

WAX is an emulsion based final coat polish for DECOSTUCCO product.

APPLICATION AREA

It is applied on effect paint products like Decostucco to give an appearance of more glossy marble and bright look.

FEATURES

- It increases the brightness of the decorative material applied and provides a glossy marble look,
- It is easy to apply with a steel trowel,
- As it is water-based, it is harmless to human health and environment.

SURFACE PREPARATION

The surface where WAX application will be done should be completely dry; all dust and dirt should be cleaned.

APPLICATION INSTRUCTIONS

- WAX should be applied as two coats with steel trowel without dilution on the surface where DECOSTUCCO application is completed on it. Between each coat, 30 minutes to 1 hour should be allowed at 23 °C,
- The second coat should be polished with velvety cloth before the coat gets dry,
- The temperature of the application environment must be kept between +5°C and +35°C during application and for 24 hours afterwards.

DRYING TIME

Allow 30 minutes - 1 hour for touch dry and 24 hours for complete dry at 23 °C environment conditions.

PACKAGING

1 Kg

THEORETICAL CONSUMPTION

Depending on the surface smoothness, its porosity and the application methods, for a single coat application:

- 1 lt covers 25,0– 34,0 m² of surface,
- 1 kg covers 25,0 – 34,0 m² of surface,
- The paint consumption for 1 m² area is 30 -40 ml and 30 - 40 gr.

STORAGE

It should be stored in a sealed package, in a cool and dry place and protected from direct sunlight; during 1 year and at a temperature between +5 °C and +35 °C.

PRECAUTIONARY STATEMENTS

- P 102 Keep out of reach of children,
- P 301+ P 310 IF SWALLOWED: Immediately call a POISON CENTRE or doctor/physician.
- Do not use the containers for food preservation.

Note: For more technical information, please check the Material Safety Data Sheet (MSDS) of the product.
