

TECHNICAL DATA SHEET

Product Code	KO21
Product description	KEMIOIL 21

COMPOSITION

- Linseed oil, filtered and boiled with traditional systems and with the addition of dryers. Resin free.

DESCRIPTION

- Base and finishing oil, natural effect. Gives a soft and bright finishing on raw or stripped wood. Penetrates in deep and in wood grain. Bright and natural effect, but not glossy.

APPLICATION

- To facilitate application, for the first coatings dilute the oil with DS337 (30%). Apply uniformly with a clean cloth. After 20 minutes, remove the product in excess in order to avoid the surface to become sticky. Repeat the process for at least 4 coatings, each one after at least 24 hours from the last, decreasing progressively the quantity of thinner. For the final coating use non-diluted oil, removing again the product in excess.

Application	with cloth
Packaging	1 L – 5 L – 25 L

CHEMICAL AND PHYSICAL PROPERTIES (standard value)

Aspect	yellow-brown
Specific weight at 20°C	0,94 kg/lt
Flash Point	163° C

Shelf Life : 12 months at 20°C in original pack

Safety advises: see information in the safety data sheet
