

**PRODUCT INFORMATION**

Date of issue: 22.10.2020

**Equinox pH7****Application area:**

Hybrid cleaner for removal of flash rust and brake dust.

**Product description:**

Equinox pH7 is an acid-free hybrid special cleaner with active agent colour indicator. The high effective hybrid cleaner reacts on flash rust and brake dust by change to purple colour after spraying and indicates the process. Due to the neutral pH-value glass, trims, plastic and metal parts are not attacked. Very good surface adhesion. Also suitable for the use on sensitive wheel rims and brake systems.

**Additional information:**

Ensure good ventilation and air extraction when applying. Do not apply in the direct sunlight. For industrial and professional use only! Safety data sheet available under [www.polytop.de](http://www.polytop.de).

**Density:**

1,10

**Art. no.:****Pack size:**

13700010	10	Liter
13700025	25	Liter
13700200	200	Liter
13700500	0,5	Liter

**Features:**

- for paint and wheels
- active substance-colour indicator
- pH-neutral formula

**Application:**

Let the rims and engine cool down. Spray Equinox pH7 undiluted from bottom to top onto the dry and cold surface and allow to work until the active agent colour indicator is turned to intensive purple colour. Rinse off thoroughly with a strong jet of water or high pressure cleaner.

**Ingredients:**

EC 648/2004: anionic surfactants less than 5%, nonionic surfactants less than 5%, amphoteric surfactants less than 5%, Komplexbildner (GLDA), fragrances (LIMONENE), preservatives (PHENOXYETHANOL, LAURYLAMINE DIPROPYLENEDIAMINE, BUTYLBENZISOTHIAZOLINONE), additional information: thioglycolate

**Hazardous informations:**

Harmful if swallowed. May cause an allergic skin reaction.

**WARNING**
