

**PRODUCT INFORMATION**

Date of issue: 08.04.2021

**Ferrox Liquid****Application area:**

Liquid polish for unpainted metal surfaces.

**Product description:**

Cleans, polishes and preserves stainless steel, chrome, aluminium and all other unpainted metal surfaces in the car, truck and bicycle sector. Ideal even for large areas such as truck tanks and wheel rims. Prevents corrosion or oxidation due to special sealing components. Easy on & easy off formula.

**Features:**

- easy on / easy off-formula
- free of silicone, ammonia and aromatics
- with sealing components

**Application:**

Hand processing: Apply with a microfiber or cotton cloth onto the surface and polish out until a dark residue is visible. Remove the residue with a soft microfiber cloth.

Machine processing: For machine processing choose a suitable polishing pad (depending on the surface). Necessarily before use check for compatibility of materials!
