

SPECO WIDE CAPPED WALL PLUG-DOWEL FOR THERMAL INSULATION

- ▶ It is an insulation panel connector.
- ▶ Used to fix the pressure resistant insulation materials for exterior masonry
- ▶ Can be used in all wall forms.
- ▶ Its tearing design makes the application easy
- ▶ It has high holding resistance
- ▶ Provides high resistance to adze impact
- ▶ The product design was developed by STAR PLASTIK A.Ş.

| PRODUCT TYPE | DIMENSIONS | | FIXATION | | | LOAD CAPACITY | | |
|-----------------------------------|------------------------------|-----------------------|-------------------------|------------------------|-------------------|---------------------|-----------|---------------|
| | Wall Plug Body Diameter (mm) | Wall Plug Length (mm) | On Hollow Surfaces (mm) | On Solid Surfaces (mm) | Hole Depth (min.) | Adherence Test (kN) | Pull (kN) | Scission (kN) |
