

Bianca Stella – Marble effect decorative spray

Areas of use

It can be applied on different surfaces such as paper, cardboard, canvas, wood, glass, metal, ceramic, porcelain, stone, acryl and others.

Application

The application surface must be clean, free from dirt, grease and dust. Cover the areas where the spray will not be applied. Before usage shake the flask for about 3 minutes. Test the spray jet before application. Distance for spraying is 30-60 cm. During application care should be taken to ensure that the applied surface and ambient temperature are between +10°C and +25°C. When work is fulfilled, turn the flask upside down and press the nozzle to clean it. After completion of work with the Marble effect decorative spray, you can apply Bianca Stella water-based Liquid glass or Bianca Maximo solvent-based Liquid glass, as a finishing layer.

Thinning (Volume)

This is a ready-to-use product.

Drying period (20°C)

Dust dry: 2 minutes

Touch dry: 15 minutes

Glass liquid application: after 2-3 hours.

Coverage

It depends on the surface and desired effect.

Storage

2 years at room temperature in its unopened, original package.

Packing

200 ml.
