

CODE	Art 1990
TRADE NAME	NITROCELLULOSE THINNER - PREMIUM - NITRO THINNER PROFESSIONAL - 1990
PRODUCT TYPE	NITRO THINNER

Technical characteristics

Formulation based on carefully selected raw materials, it is used for professional use in dilution of polished and opaque nitro-based finishes. Equipped with strong solvent power, it increases the wettability characteristics, contributing to the perfect softness, brilliance and yield of the paint used. The product is free from chlorides.

Application

To dilute:

Dilute the paint until it reaches the desired fluidity: with an optimal dilution will enhance the gloss and the distention of the paint.

To clean:

Use this when requesting the cleaning of surfaces, paintbrushes and spray guns dirty not dried.

Important

Always conduct a preliminary test before using.

Use according to good working practices, however, dispose of the product or packaging environment.

Safety data

Refer to the Material Safety Data Sheet

Chemical and Physical Property

Physical State	Liquid
Colour	Colourless
Odour	Characteristics
Flash point	< 21°C
Relative density	0,85 ± 0,02 g/cm ³
Boiling range	40°C – 180°C
Ph	Neutral
