

CODE	Art. 1601
TRADE NAME	ACETONE PURO
PRODUCT TYPE	ACETONE

Technical characteristics

Solvent for paints, lacquers, adhesives, and especially for acetyl and ethyl cellulose resins, colophony and its esters, natural and synthetic resins, etc. Also used in the celluloid industry, in wool degreasing, but above all in the furniture industry as a solvent for dyes, polyester and nitro paints, and for cleaning manufactured items and painting equipment. It is used as a solvent for cellulose acetate, oils, waxes, resins, rubber, and plastics.

Applications

To dilute:

Use to thin enamels/primers to bring the coating product to the desired fluidity, with an optimal dilution that enhances gloss and flow.

To clean:

Thanks to its high solvent power, it can also be used to clean spray guns, brushes, and tools stained with paint.

Important

Always conduct a preliminary test before using. Use according to good working practices, however, dispose of the product or packaging environment.

Safety data

Refer to the Material Safety Data Sheet

Chemical and Physical Property	
Physical State	Liquid
Colour	Colourless
Odour	Characteristic
Flash point	< 21°C
Relative density	0,79 ± 0,02 g/cm ³
Boiling point	60°C ca.
